

Together in Hope

CHANGING LIVES AND
COMMUNITIES GLOBALLY

BUILDING COMMUNITIES
HELPING PEOPLE
FEEDING THE HUNGRY
EMPOWERING LIVES

OUR MISSION

Together in Hope is devoted to touching lives in marginalized communities around the world. Every day, countless children and communities strive to meet basic needs for nourishment, education, empowerment, growth, and sufficiency. We aim to assist these destitute communities, around the world, in building more advantageous lives for themselves, their children, and their future. Within our core values, there is the

strong belief in the dignity and worth of every person and the conviction that the resources available to the global community are sufficient to meet the needs of all if we will work together in hope toward a better future. We continue to both expand these programs and develop new and exciting ones every day in partnership with the communities in which we work, and strive to build positive and beneficial relationships between our communities at home and those in growing global communities throughout the world.

GET INVOLVED

Together in Hope works hard every day to help the communities we work with. However, none of it would be possible without contributions and support from kind hearted and hard working groups, donors, colleagues and friends. Below are some of the programs Together in Hope is working on and needs your help with. To get involved please contact us at any time through our website, email, phone or mail, to donate, volunteer, or get more information. The attached donations form can also be mailed to make a contribution.

Together in Hope Needs

\$150 to send a child to school for 1 year

\$240 to feed 150 children for 1 week

\$500 for basic adult education in 1 location

\$1200 to provide health education materials at 1 location

\$3500 to send a student to college for 1 year

Donations contributing to the expansion of educational and community facilities and programs in all locations

Donations of hygienic, athletic, educational, nutritional, and other supplies

Or to find out about volunteering please contact our Program Director Laura Power at laurapower@togetherinhope.org

OUR STORY

From Director Diane McGehee

"In 2008, Jack and I had the privilege of setting our feet on the ground in Uganda and Rwanda, and also in the Philippines for the second time, and in El Salvador. We fell in love with the children and their precious smiles and open arms, despite the horrendous poverty and other circumstances that define their lives. Our hearts were broken and our faith challenged - How could this be in a world of such abundance!? What could we do? No child should have to live this way. After all, we are only two people and even if we gave everything we had, it would not begin to address the need. Yet, among this atmosphere of unrelenting obstacles, the possibility of "what if" was the answer that emerged from deep within our souls. If we worked together in hope, together with these communities to empower their gifts, together with others who live in material and other forms of abundance that could be shared and joined with the rich abundance of survival, strength, endurance, and spirit of these children, we could make a difference; we could, together, change lives and communities so that they too know fullness in all aspects of their lives - body, mind, and spirit." And thus was born

Together in Hope.

OUR WORK

The mission of Together in Hope is to assist communities in efforts to develop many aspects of their lives. In line with this goal, we have facilitated, and assisted in development programs around many different facets of life. The first program that we ever took on was the development of a school for children affected by civil war in Uganda. From this point we have gone on to develop feeding and nutrition programs for malnourished communities, along with education initiatives for children under a program called Jessica's Table. Through the early development of these programs, we have further developed community empowerment, higher education, teacher training, building development, and special needs education programs, and every day these programs continue to grow in exciting and different directions. Every community that we work with additionally has the opportunity to participate in their own growth and development, so that they are the ones with the opportunity to change their lives, and in the end, develop fully community self sustainable projects.

OUR COMMUNITIES

Together in Hope started out, in 2008, working with a small school in war torn Uganda and a small village of children near the capitol of Manila Philippines. These children and communities were not unlike many communities around the world. They were starving for life; in need of nourishment, education, and a chance for a brighter tomorrow. Since these beginnings, we have expanded our work to many other communities in need throughout the world. In addition to the programs that have been going from the start, our organization now has projects in four areas throughout the Philippines, two communities in El Salvador, and a newly developed program in Ethiopia. However, the need in these communities, and throughout the world, is still great and Together in Hope is continually looking for new places and new ways to help.

OUR FUTURE

Together in Hope is moving forward every day to help communities in need of a brighter future. We have developed a new partnership with Irish based organization Youth Release who have been developing a community outreach program for a population of over 15,000 street children in Dire Dawa Ethiopia. With this project and cooperation among our two organizations the wellbeing and future of this community will be bright. We are also hoping to expand educational and nutritional programs in our communities in El Salvador and the Philippines, along with new programs in the areas of health, ecology, and community development. Every day brings with it a new challenge and with it a new opportunity to partake in the joys of the world with those we share it with. The work that we do, and continue to develop, in these communities is vital to the survival of the global community we share, and would not be possible without the continued consideration and understanding of kind people that support Together in Hope. Thank you
